“ Shawna and I were very close growing up but unfortunately lost touch the last few years as we went on to start our own families. I was blessed this past Dec. when we had a chance meeting , what a great Christmas gift to be able to see her and tell her how I missed her, loved her, and let her know she was never far from my thoughts not knowing it would be the last time I'd see her. I only had the pleasure of meeting Shawna's son once as a baby but I hope he knows his mom is watching over him with her bright eyes, smiling her beautiful smile with him when he's happy, and sending him love and support from her big heart when he's sad. I send her other family and friends my condolences. The world has lost one of its most beautiful inside and out. Shawna u will never be forgotten. - aunt chas
